RG104 E-1 Box 171

L. L. Witherspoon,

ATTORNEY AT LAW.

Newton, N. C. June 11th 1891.

Assayer of The Mint.
Philadelphia Penn.

Dear Sir.

I hope you will be kind enough to write me the actual bullion value of a Silver dollar coined under the present Coinage laws of our Government and also the bullion value of a Silver dollar coined under the laws existing before the passage of what the politicians call the demonitization act passed perhaps about 1873.

In other words, if twenty Silver dollars were melted into bullion would they be of the value of twenty dollars in gold, and if not, what would be the difference in value.?

Yours truly
L. L. Witherspoon.

Dear Sir:

I hope you will be kind enough to write me the actual bullion value of a silver dollar coined under the present coinage laws of our Government, and also, the bullion value of a silver dollar coined under the law existing before the passage of what the politicians call the denomitization act, passed perhaps about 1873.

In other words, if twenty silver dollars were re-converted into bullion would they be of the value of twenty dollars in gold, and if not, what would be the difference in value?

Yours truly,
L.L. Witherspoon
